## INTRODUCTION.

The parish of Holy Trinity, Goodramgate, York, has included, since 1585, not only the parts lying adjacent to its main thoroughfare of Goodramgate, where its ancient church still stands in picturesque decay, but also the old pre-Reformation parish of St. John del Pike, whose church, long since demolished, stood in or about Ogleforth, as well as the "extra parochial place" called the Bedern (where formerly lived, in community life, the old Vicars Choral of York Cathedral) and a portion of the Liberty of Minster Yard. The latter, once part of the Cathedral Close, contained adjoining College Street, or Little Alice Lane as it is often called in these Registers, the ancient buildings of St. William's College, recently efficiently restored as the twentieth century home of the Northern House of Convocation, but at the time of our Registers the abode of Sir Henry Jenkins, Knight, and others, and where, too, the printing press of King Charles I. issued political broadsheets prior to the Great Civil War, in connection with which Royal residence in York the burial of Richard Rosterne, "postillion to Prince Charles," on the 28th July, 1642, forms an interesting record in the following Registers. Other notable families living in the parish and here mentioned are those of Sir Arthur Ingram, Aislaby, Baines, Barstow, Beckwith, Buckle, Camidge, Gray, Hesketh, Hillyard, Howard, Morritt, Munby, Place, Prickett, St. Quintin, Vavasor, Wentworth, Wilner, Worsley, and Yarborough. Interesting records also occur of several Regiments stationed in York with their commanding officers, which show that since the time of the Great Civil War York has maintained the place of a great military as well as ecclesiastical centre.

The Parish Registers of Holy Trinity, Goodramgate, and its united parishes and districts of St. John del Pike, Bedern, and Minster Yard, commence in 1573, and are here transcribed up to the year 1812, when a new Act of Parliament regulating the keeping of such Registers all over the country came into force. They are contained during that period in seven books, which may be briefly summarized as follows :—

Book I, the oldest, is a nearly square volume of 65 vellum leaves measuring 12 by 10 inches, and containing the entries of Christenings, Weddings, and Burials to 1654. Prior to 1604, the headings of each year are neatly done in Old English Text, but afterwards the writing and spelling deteriorate considerably.

Book II is a narrow folio of 56 vellum leaves measuring 18 by 6 inches. It contains the Register from 1654 to the end of 1699.

Book III is a leather bound volume of 75 parchment leaves 10½ by 7 inches, and covers the years 1700—1751.

Book IV is also a leather bound volume 12½ by 8 inches, containing 70 parchment leaves. It contains Baptisms, 1752—1806; Marriages, 1752—1754, and Burials, 1752—1806; also a "Register of Monies collected upon Briefs in

this Church," 1804—1812. These show the peculiarly wide and diverse objects for which local collections were made at that time, including the reparation of Churches and damages due to fire in such distant counties as Hampshire, Warwickshire, Shropshire and Staffordshire.

Book V is a Marriage Register only, being one of the printed folio books of forms issued by Thos. Lowndes, bookseller, London, so often found among Parish Registers. These contain spaces for description of parties, date, whether by banns or licence, and the signatures of the officiating Minister, parties, and witnesses. There are 88 pages, and the entries, four of which occupy a page, extend from April, 1754, to the end of December, 1790, when all the forms in the book were exhausted.

Book VI is also a printed folio Marriage Register of similar character, but only 66 pages are occupied, which carry on the Marriages from 3rd January, 1791, to 30th November, 1812.

Book VII (which completes the series here transcribed) is a leather bound folio of parchment leaves only partially used. Baptisms run from 13th August, 1806, to 1st December, 1812 at one end of the Book, and Burials from 7th February, 1807 to 26th November, 1812 at the other end. The genealogical information, which includes father's name and parentage, mother's name and parentage, and dates of birth, baptism, age, and death, is unusually full and detailed.

The Rectory of Holy Trinity, Goodramgate, was originally composed of two medieties, the patronage of one belonging to the Prior and Convent of Durham, and the other to the Archbishop of York, but in the time of Archbishop Walter de Gray, about the year 1250, the two medieties were converted into one Rectory at the collation of the Archbishop of York, in whose gift the living still remains. The best thanks of the Society are due to the Rev. Canon H. Robinson, M.A., now Rector of Badsworth, who, while Rector of Holy Trinity, gave permission to print the Registers, and to his successor, the Rev. F. L. Perkins, M.A., the present Rector, both of whom have given every facility to the Editor for transcribing the Books.

By way of carrying further back the Burial records of the Parish, this is a fitting place in which to give a List of Persons who by Will desired to be buried in the Church or Churchyard prior to the commencement of the Registers. These names are taken chiefly from the first four volumes of Wills in the York District Registry, which I have personally examined. A more detailed examination of the vols. 5 to 22 than I have been able to make, would doubtless yield further names, especially in the first three-quarters of the 16th century, and the decades immediately preceding the commencement of the Parish Registers.
